

DUE PROCESS DEFENDERS

~PRESS RELEASE~

On March 26, 2007, *Due Process Defenders*, a group comprised of multiple organizations across this nation, working in tandem to address the overwhelming issue of ongoing judicial misconduct and political corruption, delivered to **Congressman John Conyers** and **Senator Patrick Leahy**,

more than 1500 pages of evidence involving criminal acts by 'officers of the court' or government officials. Additionally, the *Defenders* provided a DVD of a *State Justice Institute* Conference funded by the **Senate and President**, in which Supreme Court Justices from ALL 50 states, were instructed to label those asserting Constitutional Protections as "*patriots*" and "*freeman*," able to be entangled in the "*Patriot Act*." At that time,

Congressman John Conyers requested a summary of the information provided, which culminated in the creation of a database by Taffy Rice of Georgia. On May 15, 2007, Taffy and Andy Rice personally delivered the ever growing, due process violations database to the Judiciary Committee, as well as to **Rep. Conyers** and **Sen. Leahy**. Initially documentation was directed to **Ted Kalo** and **Stacey Dansky** of **Rep. Conyers** Office. Unfortunately, no follow-up, investigation, or communication was provided by the aforementioned **Rep. Conyers'** Staff Members, who were replaced as contacts by **Mr. Burt Wides**, a long time Washington lawyer and political strategist assigned to **Rep. Conyers'** Staff after the *Foreign Intelligence Surveillance Act (FISA)* debacle and related disclosure.

On November 16th, 2007, in follow-up and on behalf of *Due Process Defenders*, the Rices, Carl Weston, and 8 other *Defenders* met with **Congressman Conyers' Senior Counsel Burt Wides**, regarding the House and Senate Judiciary Committees presentment of criminal activity, yet to be publicly addressed and/or investigated. At that time, Mr. Wides indicated he would be providing a recommendation to the Judiciary Committee, but would not define any specific timeframe.

This ongoing effort to hold both the Judicial Branch of Government and the US Congressional Judiciary Committees accountable, is a critical effort, *Defenders* have committed to and openly published for ALL Americans to witness and participate in. Those acknowledging or experiencing unlawful behavior, graft, and corruption, jeopardizing the United States financial structure and the very fabric of our nation, possess a duty to uphold the tenets of our nation.

Currently, *Due Process Defenders* are continuing to collect incidents of injustice, growing the database created as well as documented, for and requested by **House Judiciary Chair John Conyers**. Yet to date the *Defenders* despite the disclosures, documentation, and petition of government, have not achieved their 3 goals: (1) Overturning fraudulent cases; (2) Testifying

before Congress; and (3) a bona fide Department of Justice/FBI Investigation. The denial of public exposure regarding the judicial misconduct and political corruption bankrupting our nation has been repeatedly and willfully suppressed. Yet, in direct contrast, there have been hearings on athletes' use of steroids, domestic spying, and mortgage fraud, yet as Americans have their homes, children, livelihoods, and liberty, literally stolen in the total absence of due process or any legal standard, via courts or those purporting to be acting as a government 'of the people', not even a date for a hearing has been scheduled by the 110th Congress.

As a result, *Due Process Defenders*, began a December project. Posted at the Family Rights Radio Website <http://uscfdc.org/DecemberActions.htm>, are steps to, under the *Private Attorney General* Legislation, petition Congress for judicial review and accountability. Thus, if you too would like to file documents to the Library of Congress and 110th, documenting a violation of law ignored by legal channels, elected officials, and/or government entities, complete the form or 3 step process conveying your sovereign rights as per *the Private Attorney General* provision legislated by Congress. Or if you have a due process violation and would simply like to document the travesty, please send the case number, court, judge, and issue to Family Rights Radio, AHRC, or Taffy Rice.

However documenting crimes to unresponsive law enforcement channels is NOT enough for *Due Process Defenders*, who endeavor to uphold the '*Law of the Land*'. As Americans, living in 'a nation of laws,' we MUST uphold the supreme law, ensuring a moral, constitutional, and

financially stable country, if we are to survive on the world stage, in lieu of private jail systems owned and operated by court interests, generating inhabitants and proceeds obtained by 'fraud upon the court'. Join fellow Americans by refusing to accept a 'Judicial Matrix' predicated upon profit not law, by offering relentless commitment, dedication, and courage. As is the history of our nation, Americans must demand justice and freedom!
